Crew Van

THE IDEAL SOLUTION

A panel van that is equipped with a Snoeks Crew Cab is the perfect solution for combined transport of passengers and cargo.

A FACTORY ORIGINAL

The Snoeks Crew Cab for the Volkswagen Transporter 6.1 has been developed in collaboration with Volkswagen. As a result, the Snoeks Crew Cab meets both the European safety requirements and the quality and safety standards of the manufacturer.

PERFECT INTEGRATION

The Crew Cab range is specifically designed for the Volkswagen Transporter 6.1 and therefore fits seamlessly to the base vehicle and matches the design of the front cabin. In addition, just like with Volkswagen, you have a choice between three variants: Trendline, Comfortline and Highline

Trendline

Crew Cab

With the Trendline Crew Cab, safety, durability and functionality come first.

A Volkswagen T6.1 equipped with a Trendline Crew Cab can safely and comfortably accommodate up to 6 people. The practical loading space under the bench allows to transport long items.

The Trendline Crew Cab.

- // A comfortable three-seater bench with adjustable and tilting headrests.
- // A practical storage compartment in the bench cover and a 12-volt connection with USB.
- // Robustly finished side panels.
- // High density fiber (hdf) headlining.
- // Wear-resistant floor and step-in cover provided with anti-slip.

Comfortline

Crew Cab

Comfort and functionality are the terms that describe the Comfortline Crew Cab best. The combination of three individual seats, of which 2 are foldable, and handy storage compartments, make the Comfortline Crew Cab ready for intensive use.

The Comfortline Crew Cab.

- // Luxury headlining including 2 LED spots.
- // A comfortable seater bench of which the middle and left seats offer extra storage space underneath.
- // A practical storage compartment in the bench cover and a 12-volt connection with USB.
- // Upper and lower side wall panels with integrated bottle and cup holder and two extra storage pockets.
- // Wear-resistant floor with removable velor carpet and step-in cover provided with anti-slip.

Highline

Crew Cab

The Highline variant is the version for those who have high demands on comfort and require more luxury. With the luxurious appearance and the versatile functionalities you almost forget that it is a commercial vehicle.

The Highline Crew Cab.

- // 3 Comfortable individual sliding seats with 2 arm supports.
- // A practical storage compartment in the bench cover and a 12-volt connection with USB.
- // Luxury bench cover with two integrated speakers for the ultimate sound experience.
- // Upper and lower side wall panels with integrated bottle and cup holder and two extra storage pockets.
- // Wear-resistant floor with removable velor carpet and step-in cover provided with anti-slip.
