Crew Van

By fitting a second seat row with an integrated partition wall it is possible to convert your Crafter panel van into a Crew Van at all times. The perfect solution for the combined transport of people and material.

100% New. 100% Crafter.

Obviously the Crew Van applies to the latest European safety standards. All seats are provided with 3-point inertia-reel safety belts and tiltable and in height adjustable head restraints.

The partition wall is designed to meet the ISO 27956:2009 standards for load shifting protection.

Also the design plays an important role when developing a Crew Cab. The finely designed partition wall separates the load and passenger compartment completely.
